OPERATIONS & PERFORMANCE:

During the year under review, the Company's operations continued to be affected due to lack of sufficient working capital funds required for operations resulting in lower capacity utilisation and the gross margins have suffered due to high input costs as the Company is not able to negotiate fine pricing with its suppliers. Furthermore, the constraints of funds have effected Company's plans to undertake debottlenecking and regular capital expenditure as per industry norms and needed for proper maintenance and upkeep of its plant, machinery and equipment.

During the year ended 31.03.2021, the Company incurred a loss of Rs. 2121.17 lakhs in comparison to the loss of Rs. 4800.97 lakhs for the previous year ended 31.03.2020. Your Company's turnover of Rs. 3588.24 lakhs was lower against the previous year turnover of Rs. 10804.84 lakhs for the aforementioned reasons. The Company has since undertaken manufacturing for third parties on job work basis, which contributes towards fixed costs of the Company.

DEBT RESTRUCTURING:

The Company's borrowings from secured lenders exceeding 83% of amount have since been assigned by the lending banks to Edelweiss Asset Reconstruction Company Limited (EARC).

Edelweiss Assets Reconstruction Company Ltd.(EARC) an Asset Reconstruction Company has claimed that it is an assignee of debt payable by the company by certain banks. The actions of the Banks and EARC, amongst others, for recovery of debt held by them as owed by the Company and action to seek declaration that the Company being in default of the debt and be declared insolvent, are disputed by the Company as the debt is not acknowledged, and in any case the actions of Banks and EARC are barred by limitation. Additionally, the Company has a counter claim against the claimants for the losses caused by them to the

Company. The Company had without prejudice to its rights and without acknowledging its liability, initiated discussions with claimants to settle the disputes, which failed. The Financial Commissioner of the State of Punjab has since determined that the Agreements for Assignment of debt by lenders of the Company to EARC are insufficiently stamped, and therefore, defective. A demand of Rs. 4.46 crores (interest and penalty to be applied) was raised against EARC, and EARC had filed a writ petition before the Hon'ble Punjab and Haryana High Court at Chandigarh against the proceedings by the Authorities.

EARC had filed a Petition to initiate insolvency proceedings against the Company, which was dismissed by the Hon'ble NCLT vide its order dated 17th March 2020 with an observation that the assignment deed is unenforceable. An appeal filed by EARC against this order is under adjudication.

Indian Overseas Bank has initiated insolvency proceedings against the Company before NCLT which is being contested by the Company.

The Company does not consider itself liable towards the claimants, and accounting remains pending settlement with them.

In the absence of a resolution of disputes with the claimants, the Management not considering the Company to be liable on this account, has prepared the financial statements on 'Going Concern' basis.

Further, the Company's net worth, which continues to be eroded, is expected to improve on complete implementation of the settlement plan by the Company with Lenders.

MSME REGISTRATION:

The Company has applied on 18th July, 2020 for registration under MSME Act and the Ministry of Micro, Small and Medium Enterprises, Government of India has registered the Company as 'Medium Enterprise' on 18.07.2020 vide its Udyam Registration No. UDYAM-CH-01-0000261.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INTRODUCTION

India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries.

The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital-intensive sophisticated mills sector on the other end. The decentralised power looms/ hosiery and knitting sector forms the largest component in the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce wide variety of products suitable for different market segments, both within India and across the world.

IMPACT OF COVID ON INDIAN TEXTILE INDUSTRY

Manufacturing Shutdown

The industry faced a complete shutdown for around 2-3 months, while a few manufacturers who dedicated their production systems for PPE manufacturing were permitted to function. However, most of the units operated at suboptimal utilization levels.

Logistics Suspended

Disrupted logistics and frozen external trade caused due to the pandemic affected the entire value chain alike. India's April and May 2020 net trade were around 50% lower month-on-month compared to that of the previous year.

Cancelled Orders

Due to the uncertainty across the market, international and domestic buyers cancelled or suspended their orders, adding to the woes of the industry.

Slump in Physical Retail Sales

Lockdown restrictions across the country resulted in a slump in the retail sales of apparel for at least 4-5 months. Moreover, the festive and wedding season sales were deeply impacted.

New Consumer Trends Emerged

India's e-commerce sale of goods and apparel saw a steep rise in 2020. Work-From-Home drove the demand for casual wear apparel over formals.

Garments and Made-ups Production Garment production in India was estimated at 22 billion pcs in 2019-20, while made-ups production stood at approx. 2.4 billion Kg. Due to Covid-19, the 2020-21 apparel and made-ups production was approx. to fall 27% and 12%, respectively.

COMPANY OVERVIEW:

During the year under review, the Company's operations continued to be affected due to lack of sufficient working capital funds required for operations resulting in lower capacity utilisation and the gross margins have suffered due to high input costs as the Company is not able to negotiate fine pricing with its suppliers. Furthermore, the constraints of funds have effected Company's plans to undertake debottlenecking and regular capital expenditure as per industry norms and needed for proper maintenance and upkeep of its plant, machinery and equipment.

FINANCIAL PERFORMANCE:

During the year ended 31.03.2021, the Company incurred a loss of Rs. 2121.17 lakhs in comparison to the loss of Rs. 4800.97 lakhs for the previous year ended 31.03.2020. Your Company's turnover of Rs. 3588.24 lakhs was lower against the previous year turnover of Rs. 10804.84 lakhs for the aforementioned reasons. The Company has since undertaken manufacturing for third parties on job work basis, which contributes towards fixed costs of the Company.

DEBT RESTRUCTURING:

The Company's borrowings from secured lenders exceeding 83% of amount have since been assigned by the lending banks to Edelweiss Asset Reconstruction Company Limited (EARC).

Edelweiss Assets Reconstruction Company Ltd.(EARC) an Asset Reconstruction Company has claimed that it is an assignee of debt payable by the company by certain banks. The actions of the Banks and EARC, amongst others, for recovery of debt held by them as owed by the Company and action to seek declaration that the Company being in default of the debt and be declared insolvent, are disputed by the Company as the debt is not acknowledged, and in any case the actions of Banks and EARC are barred by limitation. Additionally, the Company has a counter claim against the claimants for the losses caused by them to the Company. The Company had without prejudice to its rights and without acknowledging its liability,

initiated discussions with claimants to settle the disputes, which failed. The Financial Commissioner of the State of Punjab has since determined that the Agreements for Assignment of debt by lenders of the Company to EARC are insufficiently stamped, and therefore, defective. A demand of Rs. 4.46 crores (interest and penalty to be applied) was raised against EARC, and EARC had filed a writ petition before the Hon'ble Punjab and Haryana High Court at Chandigarh against the proceedings by the Authorities.

EARC had filed a Petition to initiate insolvency proceedings against the Company, which was dismissed by the Hon'ble NCLT vide its order dated 17th March 2020 with an observation that the assignment deed is unenforceable. An appeal filed by EARC against this order is under adjudication.

Indian Overseas Bank has initiated insolvency proceedings against the Company before NCLT which is being contested by the Company.

The Company does not consider itself liable towards the claimants, and accounting remains pending settlement with them.

In the absence of a resolution of disputes with the claimants, the Management not considering the Company to be liable on this account, has prepared the financial statements on 'Going Concern' basis.

Further, the Company's net worth, which continues to be eroded, is expected to improve on complete implementation of the settlement plan by the Company with Lenders.

The Company's net worth, which continues to be eroded, is expected to improve on complete implementation of the debt restructuring plan by the Company, which is under discussion/consideration with the EARC/Lenders, and the Company expects that the Application filed by EARC under IBC will be withdrawn.

ANNEXURE 'B' TO INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF WINSOME YARNS LTD.

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of the section 143 of the Act.

We have audited the internal financial controls over financial reporting of Winsome Yarns Limited ("the Company") as of March 31, 2021, in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for laying down and maintaining internal financial controls based on 'the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance note on Audit of Internal Financial Controls Over Financial Reporting (Guidance Note) issued by the Institute Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (the Act).

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Standards of Auditing, to the extent applicable to an audit of internal financial controls and the Guidance Note, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain the reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control system over financial reporting

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Ind AS financial statements.

Place: New Delhi

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of its inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not to be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis of Qualified Opinion

We draw attention to the paragraph 2 "Basis for Qualified Opinion" of our main report and the same to be read with our comments as stated below:

According to the information and explanation given to us and based on our audit, the following material weaknesses have been identified as at March 31, 2021:

- 1. The Company did not have appropriate internal control system for
 - a) Adjustment/Set off and written off/write back payment of receivables/payables.
 - b) Credit control policy and procedure.
 - c) No policy or procedure for receipt of balance confirmation of receivables, particularly overseas overdue receivables, bank balances, payables (including of an associate company), secured loans and other liabilities and loans and advances.
- 2. The company did not have any extensive internal control system for follow up/recovery/adjustment of old outstanding receivables and payables including balance confirmation and reconciliation.

Material weakness is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual financial statements will not be prevented or deleted on a timely basis.

In our opinion, except for the effects/possible effects of the material weaknesses described above and on the achievement of the objectives of control criteria, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

We have considered the material weaknesses identified and reported above in determining the nature, timing and extent of audit tests applied in our audit of the March 31, 2021 standalone financial statements of the Company and these material weaknesses does not affect our opinion on the standalone financial statements of the Company.

Neha Singhal Company Secretary Sanjay Sharma Chief Financial Officer Notes to the standalone financial statements as at and for the year ended March 31, 2021.

1. Corporate Information: Winsome Yarns Limited (the Company) having CIN: L17115CH1990PLC010566 is a public company domiciled in India and incorporated under the provisions of Companies Act, 1956. Its shares are listed on the Bombay Stock Exchange and National Stock Exchange. The Company is engaged into manufacturing of Yarn, Knitwear and generation of power.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation of financial statements

(a) Statement of Compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (the Act), (Ind AS compliant Schedule III), as applicable to the Company.

Effective April 1, 2017, the Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 'First time adoption of Indian Accounting Standards', with April 1, 2016, as the transition date. The transition was carried out from Indian Accounting Principles Generally Accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(b) Functional and presentation currency

These financial statements are presented in Indian rupees (Rs.), which is the Company's functional currency. All amounts have been rounded to the nearest Lakh unless otherwise indicated [10 Lakh = 1 Million].

(c) Basis of Measurement

The financial statements are prepared as a going concern basis under historical cost convention basis, except for certain items with significant uncertainty, which are measured at fair values.

Determining the Fair Value

While measuring the Fair Value of an asset or a liability, the Company used observable market data as far as possible. Fair values are categorised into different levels in a Fair Value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of trade receivables, trade payables and other Current financial assets and liabilities is considered to be equal to the carrying amounts of these items due to their short-term nature. Where such items are Non-current in nature, the same has been classified as Level 3 and fair value determined using discounted cash flow basis. Similarly, unquoted equity instruments where most recent information to measure fair value is insufficient, or if there is a wide range of possible fair value measurements, cost has been considered as the best estimate of fair value.

If the inputs used to measure the Fair Value of an asset or a liability fall into different levels of the Fair Value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the Fair Value hierarchy as the lowest level input that is significant to the entire measurement.

(d) Use of Estimate

The preparation of financial statements in conformity with the Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of the contingent asset and contingent liability at the date of the financial statements and reported amount of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from the estimates. Appropriate changes in estimate are made as the management become aware of the change in circumstances surrounding the estimates. Change in the estimates are reflected in the financial statements in the period in which the changes are made and, if material, their effect are disclosed in the notes to financial statements.

(e) Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 – Presentation of Financial Statements issued by the Ministry of Corporate Affairs based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

(f) Covid-19

COVID-19 pandemic has caused serious disruptions on the global economic and business environment and there is a huge uncertainty with respect to its severity, which cannot be reasonably ascertained. However, the Company has evaluated and factored the possible effects in its working to the extent possible, including likely impact that may result from the COVID-19 pandemic as well as all events and circumstances upto the date of approval of these financial results on the carrying value of its assets and liabilities as at 31st March 2021. In order to mitigate the uncertainty due to frequent lock-down of operations for reasons of observing a high level of health and safety, the Company has undertaken manufacturing operations on job work basis.

The operations of the Company are running at substantially below optimal levels. The operations are expected to remain impacted until customer orders return to normal levels, and supply chain stabilises, and the availability of manpower is consistent.

The impact of any event and developments occurring after the financial results for the quarter and year ended March 31, 2021 may differ from that estimated as at the date of approval of these financial results and will be recognised prospectively.

(b) Recent accounting pronouncement

(a) Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors.
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch up approach) The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company will adopt the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly comparatives for the year ending or ended March 31, 2018 will not be retrospectively adjusted.

(b) Ind AS 116 on "Leases": On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116 on Leases. Ind AS 116 will replace the existing Ind AS 17 on Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the Lessee and the Lessor. Ind AS 116 introduces a single lease accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the Statement of Profit & Loss as per Ind AS 17. The Standard also contains enhanced disclosure requirements for lessees.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The standard permits two possible methods of transition:

- a) Full retrospective: Retrospectively to each prior period presented applying Ind AS 8 on 'Accounting Policies, Changes in Accounting Estimates and Errors'.
- b) Modified retrospective: Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application. Under modified retrospective approach, the lessee records the lease liability at the present value of remaining lease payments, discounted at the incremental borrowing rate and the right of use asset either as its carrying amount as if the standard had been applied since the commencement date, but discounted at lessee's incremental borrowing rate at the date certain practical expedients are available under both the methods.

On completion of the evaluation of the Ind AS 116, the Company found that underlying value of leased assets of the Company is of low value and accordingly applying Para 4 of Ind AS 116, no adjustment is required to be made to the leased assets of the Company. Therefore, the Company is carrying its leased assets as per earlier standard.

(c) Significant accounting policies

a) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of Property, Plant and Equipment recognised as at April 1, 2016 measured as per the previous GAAP. Cost directly attributable to acquisition are capitalised until the Property, Plant and Equipment are ready for use as intended by the management.

Property, Plant and Equipment are derecognised from financial statements, either on disposal or when no economic benefits are expected from its use. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the Property, Plant and Equipment and the resultant gains or losses are recognized in the Statement of Profit and Loss. Property, Plant and Equipment, which are to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation on Property, Plant and Equipment commences when the these assets are ready for their intended use. Items of Property, Plant and Equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of these assets, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a straight line basis. Depreciation on Property, Plant and Equipment purchased or sold during the year is proportionately charged.

Depreciation methods, useful lives and residual values of Property, Plant and Equipment are reviewed periodically, including at each financial year end by the management of the Company.

b) Intangible Assets

Intangible Assets are stated at cost of acquisition less accumulated amortisation. Specialized Software is amortised over an estimated useful period of six year. Amortisation is done on straight line basis.

c) Impairment of non financial assets

Property, Plant and Equipment are evaluated for recoverability, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such

cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

(d) Inventories

- i. Inventories are valued at lower of cost or net realisable value except for scrap and by-products which are valued at net realisable value.
- **ii.** Cost of inventories of finished goods and work-in-process includes material cost, cost of conversion and other related overhead costs.
- iii. Cost of inventories of raw material, work-in-process and stores and spares is determined on weighted Average Cost Basis.

(e) Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

Financial Assets:

Recognition: Financial assets include Investments, Trade receivables, Advances, Security Deposits, Cash and cash equivalents. Such assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification: Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Financial assets are classified as those measured at:

- a) amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/ or interest.
- b) fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.
- c) fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

In case of investment in equity shares

a) For subsidiaries, associates and joint ventures: Investments in equity instruments are measured at fair value and considered as deemed cost. The value is tested for impairment on periodical basis. Provision for diminution in long term investments is made only if such decline is other than temporary.

b) For other than subsidiaries, associates and joint ventures: Investments in equity instruments are measured at FVTOCI.

Debt instruments:

Debt instruments are measured at amortised cost. Assets that are held for collection of contractual cash flows where those cash flows represent solely payment of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently measured at amortised cost is recognised when the asset is derecognised or impaired. Interest income from these financial assets is included as part of other income using the effective interest rate method.

Other:

Trade receivables, Advances, Security Deposits, Cash and cash equivalents etc., are reclassified for measurement at amortised cost.

Impairment: The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since its initial recognition.

Reclassification: When and only when the business model is changed, the Company shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

De-recognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership. Concomitantly, if the asset is one that is measured at:

- a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;
- b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment in which case the cumulative fair value adjustments previously taken to reserves is reclassified within equity.

Financial Liabilities

Initial and subsequent recognition: Borrowings, trade payables and other financial liabilities are initially recognised at the value of the respective contractual obligations. They are subsequently measured at amortised cost. Any discount or premium on redemption / settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest rate method and adjusted to the liability figure disclosed in the Balance Sheet.

De-recognition: Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation in respect of the liabilities is discharged, cancelled and settled on expiry by the Company.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Equity Instruments

Equity instruments are recognised at the value of the proceeds, net of direct costs of the capital issue.

(f) Government Grants

Group entities may receive government grants that require compliance with certain conditions related to the entity's operating activities or are provided to the entity by way of financial assistance on the basis of certain qualifying criteria

Government grants are recognised when there is reasonable assurance that the grant will be received, and the Group entity will comply with the conditions attached to the grant. Accordingly, government grants:

- a) related to or used for assets are included in the Balance Sheet as deferred income and recognised as income over the useful life of the assets.
- b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.
- c) by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

Capital subsidy under TUFS from the Ministry of Textiles on specified processing machinery has been treated as deferred income which is recognized on systematic and rational basis in proportion of the applicable depreciation over the useful life of the respective assets and is adjusted against the depreciation to the Statement of Profit and Loss.

Duty drawback / DEPB is recognised at the time of exports and the benefits in respect of advance license received by the Company against export made by it are recognised as and when goods are imported against them.

(g) Claims, Provisions, Contingent assets and Liabilities:

Claims lodged by and lodged against the Company are accounted in the year of payment or settlement thereof.

Provisions are recognised when, as a result of a past event, the Company has a legal or constructive obligation; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. The amount so recognised is the best estimate of the consideration required to settle the obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. In an event when the time value of money is material, the provision is carried at the present value of the cash flows estimated to settle the obligation.

Contingent liabilities are not recognised but are disclosed by way of notes to the financial statements, after careful evaluation by the management of the facts and legal aspects of each matter involved. Contingent assets are neither recognised nor disclosed in the financial statements. Contingent liabilities are assessed continually to determine whether an outflow of resources embodying the economic benefit has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as contingent liability, a provision is recognised in the financial statements of the period in which the change in probability occurs.

(h) Recognition of revenue and expenditure

(i) Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Revenue represents the net invoice value of goods and services provided to third parties after deducting discounts, volume rebates, outgoing taxes.

Revenue is recognised usually when all significant risks and rewards of ownership of the asset sold are transferred to the customer and the commodity has been delivered to the shipping agent. Revenue from sale of material by-products are included in revenue.

(ii) Interest and dividend income

Interest income is recognised using Effective Interest Method (EIR).

EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of financial instruments or a shorter period, where appropriate, to the gross carrying amount of the asset or to the amortised cost of financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit loss.

Dividend income is recognised in the Statement of Profit and Loss when the right to receive dividend is established.

(i) Borrowing Cost

Borrowing Cost attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets upto the date when such assets are ready for intended use. Other borrowing costs are charged as expense in the year in which they are incurred.

(j) Employee benefits

Benefits such as salaries, wages and short term compensations etc. is recognized in the period in which the employee renders the related services.

The Company makes contributions to defined benefit schemes and defined contribution plans. Provident Fund contributions are in the nature of defined contribution scheme. Provident funds are deposited with government and recognised as an expense. The Company also make contribution to defined benefit plan i.e. gratuity plan. The cost of providing benefits under the defined benefit obligation is calculated by independent actuary using the projected unit credit method. Service costs and net interest expense or income is reflected in the Statement of Profit and Loss. Gain or Loss on account of re-measurements are recognised immediately through other comprehensive income in the period in which they occur.

The employees of the Company are entitled to compensated leave for which the Company records the liability based on actuarial valuation computed using projected unit credit method. These benefits are unfunded.

Actual disbursements made, under the Workers' Voluntary Retirement Scheme are accounted as revenue expenses.

(k) Taxes on income

Taxes on income comprises of current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the amounts used for taxation purposes (tax base), at the tax rates and tax laws enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for the future tax consequences to the extent it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Income tax, in so far as it relates to items disclosed under other comprehensive income or equity, are disclosed separately under other comprehensive income or equity, as applicable.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realize the asset and settle the liability simultaneously.

(1) Foreign currency transactions and translation

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.

Monetary items denominated in foreign currencies at the year end are restated at year end rates. In case of monetary items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognised as exchange difference and the premium paid on forward contracts has been recognised over the life of the contract. Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Statement of Profit and Loss.

Non-monetary foreign currency items are carried at cost.

(m) Prior period errors

Prior Period Errors are omissions from, and misstatements in, prior period financial statements resulting from the failure to use, or the misuse of, reliable information that was available, or could not be reasonably expected to have been obtained, at the time of preparation of those financial statements.

Prior Period Errors have been corrected retrospectively in the financial statements. Retrospective application means that the correction affects only prior period comparative figures, current period amounts are unaffected. Comparative amounts of each prior period presented which contain errors are restated. If however, an error relates to a reporting period that is before the earliest prior period presented, then the opening balances of

assets, liabilities and equity of the earliest prior period presented has been restated by following IAS 8.

(n) Earnings per share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also, the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

(o) Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

Amendment to Ind AS-7

Effective April 1, 2017, the Company adopted the amendment to Ind AS7, which require the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The adoption of amendment did not have any material impact on the financial statements.

(p) Cash and cash equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

The Company has alleged that the action taken by the aforementioned lenders was incorrect in law, and the Company has a claim for damages suffered by it.

- (ii) The Company's request to the lending banks from time to time seeking permission for renewal and continuation of "Holding-on operations" in the banking accounts of the Company (which were unilaterally and intermittently stopped by the lending banks on several occasions earlier) were not accepted and funds of the Company aggregating Rs.152.25 Lakhs (previous year Rs. 152.25 Lakhs) are lying in the current accounts/fixed deposit accounts with the lending banks. The stuck-up funds of the Company are accounted as part of Bank Balances in Note No. 12 and 13 of the financial statements. The Company had filed a Civil Suit before Civil Judge (Junior Division), Chandigarh for recovery of Rs. 42.16 Lakhs lying in the current account with State Bank of Patiala (since merged with State Bank of India) and the Hon'ble Civil Judge has been pleased to direct State Bank of Patiala to remit the amount lying in current account to Edelweiss Asset Reconstruction Company Ltd. The Company shall adjust the balance of its borrowings in the year in which the aforesaid amount is remitted by State Bank of India to EARC.

The Company was in discussion with its lenders for evolving a scheme of rehabilitation and/or restructuring of its financial debts and had made advance payments aggregating to Rs. 2268.50 Lakhs upto July 2018, which continued both during the period that the Reference of the Company was under consideration before the Hon'ble Board for Industrial and Financial Reconstruction and the period since repeal of the Sick Industrial (Special Provisions) Act, 1985. Additionally, the Company has a counter claim against the claimants for the losses caused by them to the Company. The Company had without prejudice to its rights and without acknowledging its liability, initiated discussions with claimants to settle the disputes, which failed. The Financial Commissioner of the State of Punjab has since determined that the Agreements for Assignment of debt by lenders of the Company to EARC are insufficiently stamped, and therefore, defective. A demand of Rs. 4.46 crores (interest and penalty to be applied) was raised against EARC, and EARC had filed a writ petition before the Hon'ble Punjab and Haryana High Court at Chandigarh against the proceedings by the Authorities.

the assignment deed is unenforceable. An appeal filed by EARC against this order is under adjudication.

1. Qualified Opinion.

We have audited the accompanying Consolidated Ind AS financial statements of Winsome Yarns Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the holding company and its subsidiaries together referred to as "the Group") which comprise the Consolidated Balance Sheet as at March 31, 2021, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in equity for the year then ended, and notes to the Consolidated Financial Statement, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, **except for the effects/ possible effects of the matters described in paragraph under 'Basis of Qualified Opinion**', the aforesaid Consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the consolidated state of affairs of the Group as at March 31, 2021, and its consolidated profit/loss including other consolidated comprehensive income, its consolidated cash flows and the consolidated changes in equity for the year ended on that date.

2. Basis for Qualified Opinion.

- i. In view of accumulated losses of the Group as at the end of March 31, 2021, the net worth of the Group as at that date being negative, continuous losses, negative cash flows and due to financial constraints, material uncertainty exists about the Group ability to continue as going concern. The decision of management of the Group to prepare the accounts of the Company on going concern basis for reasons that as refer to note no. 3.11 to consolidated financial statement, (a) proposed rehabilitation plan of the Holding Company is under discussions with majority of lenders, and (b) future business plans of the Group and expected cash flows therefrom will suffice to service restructured debts of the Holding Company, there would arise a need to adjust the realizable value of assets and liabilities in the event of failure of assumptions as to going concern, and in the absence of impact of aforesaid assumptions having been un-ascertained, we are unable to comment thereon.
- ii. The Financial result for the year ended on March 31, 2021 are understated due to:
 - a) Non provisioning of interest expenses, on borrowings, of Rs. 14852.97 Lakhs for the year ended on March 31, 2021 (Rs. 12890.29 lakhs for the year ended on March 31, 2020), and Rs. 67556.26 Lakhs being aggregate amount of interest unprovided till the year ended March 31, 2021 (Rs. 52703.29 Lakhs till the year ended March 31, 2020), and further amount towards penal interest, penalty, interest payable to EARC etc. as may be charged by the lenders. (In the absence of statement of account, the above amount has been arrived at as per estimates of the Holding Company, and the aggregate unprovided amount in books of account of the Holding Company is not ascertainable with accuracy).
 - b) Non provisioning against long outstanding receivables of Rs.602.50 Lakhs (Rs. 521.57 Lakhs as at March 31, 2020) including of overseas overdue trade receivables. Further Re-instatement of few debtors, advance from customers, creditors for export, etc on exchange fluctuation is not recognized in line with Ind AS 21 "The Effects of changes in Foreign Exchange Rates" the effect of which we are unable to comment.
- iii. As stated in note no. 7 of consolidated financial statement, investment in USD 48,19,980 in Arise Money Market Fund. As per information given to us, the balance above is as per rate of exchange prevailing at the time of investment, and is subject to adjustment in rate

of foreign exchange and accruals on money market investments. The non-accounting of investment at fair value and non-recognition of exchange fluctuation in respect thereto is not in line with Ind AS 109 "Financial Instruments" and Ind AS-21 "The Effects of Changes in Foreign Exchange Rates". In the absence of any confirmation and working, the effect of over/under valuation and over/under statement, we are unable to comment.

- iv. Regarding provisions in case of investments in subsidiaries, written off/written back and adjustment/ set off of payment of receivables/payables from/to overseas parties/suppliers, which is pending necessary approval of the competent authority.
- v. The Internal Control Systems need to be further strengthened in order that they are commensurate with the size of the Holding Company and the nature of its business, more particularly in areas of, purchases and consumption of materials, charging of expenses, set-off of balances, and invoicing of sale of goods and services.
- vi. Confirmation of balances and reconciliation thereof with respective parties are pending, which include balances pertaining to, accounts receivable and payable, bank balances (including FDR), other current assets, advance for leasing, security deposit with government, loans and advances recoverable, secured loans, other liabilities, provisions, and contingent liabilities. All balances have been certified by the management of the Holding Company. In the absence of the Holding Company having aforementioned details and confirmations, the impact thereof is unascertainable, and therefore, not being commented. Further strengthening of internal controls by the Holding Company will provide greater reliability.
- vii. In earlier year, management of Holding Company noticed and found fraud in the nature of shortage/misappropriation of goods stored at its Ludhiana Branch during the financial year 2017-18 by its employee/s against which the management of Holding Company took action by lodging F.I.R. with the concerned Police Station and investigation in the matter is pending. The misappropriation of goods has been valued at Rs. 70 Lakhs against which some of the parties to whom goods were sold by the concerned employees have confirmed having received the goods and also confirmed to the Holding Company as having made payment against the same. The Holding Company also filed its claim to insurance Company under Employee Fidelity Insurance, effect whereof has been accounted in the books of account of the Holding Company, considering the ongoing recovery process of its claims and as per information given to us by management the matter is still pending and same as it is previous financial year.
- viii. We have not been provided the financial statement/financial information of subsidiary companies (1) Winsome Yarns (Cyprus) Ltd, (2) Winsome Yarns FZE. Therefore, we are unable to comment about any possible effect of these subsidiary companies in consolidated financial statement for the period ending 31st March 2021.

ANNEXURE 'A' TO INDEPENDENT AUDITORS REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF WINSOME YARNS LTD.

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of the section 143 of the Act.

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March, 2021, we have audited the internal financial controls over financial reporting of Winsome Yarn Limited (hereinafter referred to as "the Holding Company").

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountant of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the Guidance Note") issued by the ICAI and the Standards of Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain the reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company.

Meaning of Internal Financial Controls over Financial Reporting

Holding Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Holding Company's internal financial control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Holding Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles,

and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Holding Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Holding Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of its inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not to be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis of Qualified Opinion

We draw attention to the paragraph 2 "Basis for Qualified Opinion" of our main report and the same to be read with our comments as stated below:

According to the information and explanation given to us and based on our audit, the following material weaknesses have been identified as at March 31, 2021:

- 1. The Company did not have appropriate internal control system for
 - a) Adjustment/Set off and written off/write back payment of receivables/payables.
 - b) Credit control policy and procedure.
 - c) No policy or procedure for receipt of balance confirmation of receivables, particularly overseas overdue receivables, bank balances, payables (including of an associate company), secured loans and other liabilities and loans and advances.
- 2. The company did not have any extensive internal control system for follow up/recovery/adjustment of old outstanding receivables and payables including balance confirmation and reconciliation.

Material weakness is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual financial statements will not be prevented or deleted on a timely basis. In our opinion, except for the effects/possible effects of the material weaknesses described above and on the achievement of the objectives of control criteria, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

We have considered the material weaknesses identified and reported above in determining the nature, timing and extent of audit tests applied in our audit of the March 31, 2021 Consolidated financial statements of the Company and these material weaknesses does not affect our opinion on the Consolidated financial statements of the Company.

Neha Singhal Sanjay Sharma Company Secretary Chief Financial Officer Notes to the consolidated financial statements as at and for the year ended March 31, 2021.

1. Corporate Information: Winsome Yarns Limited (the Company) is a Public Limited Company. The Company and its subsidiaries collectively referred to as "the Group" and is primarily engaged into manufacturing of Yarn, Knitwear and generation of power. The consolidated financial statements as at March 31, 2021 present the financial position of the Group.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation of financial statements

(a) Statement of Compliance

The financial statements of the group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (the Act), (Ind AS compliant Schedule III), as applicable to the group.

Effective April 1, 2017, the group have adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 'First time adoption of Indian Accounting Standards', with April 1, 2016, as the transition date. The transition was carried out from Indian Accounting Principles Generally Accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(b) Functional and presentation currency

These financial statements are presented in Indian rupees (Rs.), which is the Company's functional currency. All amounts have been rounded to the nearest nearest Lakh unless otherwise indicated [10 Lakh = 1 Million].

(c) Basis of Measurement

The financial statements are prepared as a going concern basis under historical cost convention basis, except for certain items with significant uncertainty, which are measured at fair values.

Determining the Fair Value

While measuring the Fair Value of an asset or a liability, the group used observable market data as far as possible. Fair values are categorised into different levels in a Fair Value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of trade receivables, trade payables and other Current financial assets and liabilities is considered to be equal to the carrying amounts of these items due to their short-term nature. Where such items are Non-current in nature, the same has been classified as Level 3 and fair value determined using discounted cash flow basis. Similarly, unquoted equity instruments where most recent information to measure fair value is insufficient, or if there is a wide range of possible fair value measurements, cost has been considered as the best estimate of fair value.

If the inputs used to measure the Fair Value of an asset or a liability fall into different levels of the Fair Value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the Fair Value hierarchy as the lowest level input that is significant to the entire measurement.

(d) Use of Estimate

The preparation of financial statements in conformity with the Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of

assets and liabilities, the disclosures of the contingent asset and contingent liability at the date of the financial statements and reported amount of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from the estimates. Appropriate changes in estimate are made as the management become aware of the change in circumstances surrounding the estimates. Change in the estimates are reflected in the financial statements in the period in which the changes are made and, if material, their effect are disclosed in the notes to financial statements.

(e) Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 – Presentation of Financial Statements issued by the Ministry of Corporate Affairs based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

(f) Covid-19

COVID-19 pandemic has caused serious disruptions on the global economic and business environment and there is a huge uncertainty with respect to its severity, which cannot be reasonably ascertained. However, the Company has evaluated and factored the possible effects in its working to the extent possible, including likely impact that may result from the COVID-19 pandemic as well as all events and circumstances upto the date of approval of these financial results on the carrying value of its assets and liabilities as at 31st March 2021. In order to mitigate the uncertainty due to frequent lock-down of operations for reasons of observing a high level of health and safety, the Company has undertaken manufacturing operations on job work basis.

The operations of the Company are running at substantially below optimal levels. The operations are expected to remain impacted until customer orders return to normal levels, and supply chain stabilises, and the availability of manpower is consistent.

The impact of any event and developments occurring after the financial results for the quarter and year ended March 31, 2021 may differ from that estimated as at the date of approval of these financial results and will be recognised prospectively.

(b) Recent accounting pronouncement

(a) Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors.
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch up approach) The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Group will adopt the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly comparatives for the year ending or ended March 31, 2018 will not be retrospectively adjusted.

(b) Ind AS 116 on "Leases": On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116 on Leases. Ind AS 116 will replace the existing Ind AS 17 on Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the Lessee and the Lessor. Ind AS 116 introduces a single lease accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the Statement of

Profit & Loss as per Ind AS 17. The Standard also contains enhanced disclosure requirements for lessees.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The standard permits two possible methods of transition:

- a) Full retrospective: Retrospectively to each prior period presented applying Ind AS 8 on 'Accounting Policies, Changes in Accounting Estimates and Errors'.
- b) Modified retrospective: Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application. Under modified retrospective approach, the lessee records the lease liability at the present value of remaining lease payments, discounted at the incremental borrowing rate and the right of use asset either as its carrying amount as if the standard had been applied since the commencement date, but discounted at lessee's incremental borrowing rate at the date certain practical expedients are available under both the methods.

On completion of the evaluation of the Ind AS 116, the Group found that underlying value of leased assets of the Group is of low value and accordingly applying Para 4 of Ind AS 116, no adjustment is required to be made to the leased assets of the Group. Therefore, the Group is carrying its leased assets as per earlier standard.

(c) Significant accounting policies

a) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of Property, Plant and Equipment recognised as at April 1, 2016 measured as per the previous GAAP. Cost directly attributable to acquisition are capitalised until the Property, Plant and Equipment are ready for use as intended by the management.

Property, Plant and Equipment are derecognised from financial statements, either on disposal or when no economic benefits are expected from its use. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the Property, Plant and Equipment and the resultant gains or losses are recognized in the Statement of Profit and Loss. Property, Plant and Equipment, which are to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation on Property, Plant and Equipment commences when the these assets are ready for their intended use. Items of Property, Plant and Equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of these assets, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a straight line basis. Depreciation on Property, Plant and Equipment purchased or sold during the year is proportionately charged.

Depreciation methods, useful lives and residual values of Property, Plant and Equipment are reviewed periodically, including at each financial year end by the management of the Group.

b) Intangible Assets

Intangible Assets are stated at cost of acquisition less accumulated amortisation. Specialized Software is amortised over an estimated useful period of six year. Amortisation is done on straight line basis.

c) Impairment of non financial assets

Property, Plant and Equipment are evaluated for recoverability, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in

the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

(d) Inventories

- i. Inventories are valued at lower of cost or net realisable value except for scrap and by-products which are valued at net realisable value.
- ii. Cost of inventories of finished goods and work-in-process includes material cost, cost of conversion and other related overhead costs.
- **iii.** Cost of inventories of raw material, work-in-process and stores and spares is determined on weighted Average Cost Basis.

(e) Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Group commits to purchase or sell the asset.

Financial Assets:

Recognition: Financial assets include Investments, Trade receivables, Advances, Security Deposits, Cash and cash equivalents. Such assets are initially recognised at transaction price when the Group becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification: Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Financial assets are classified as those measured at:

- a) amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/ or interest.
- b) fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.
- c) fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

In case of investment in equity shares

For other than subsidiaries, associates and joint ventures: Investments in equity instruments are measured at FVTOCI.

Debt instruments:

Debt instruments are measured at amortised cost. Assets that are held for collection of contractual cash flows where those cash flows represent solely payment of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently measured at amortised cost is recognised when the asset is derecognised or impaired. Interest income from these financial assets is included as part of other income using the effective interest rate method.

Other:

Trade receivables, Advances, Security Deposits, Cash and cash equivalents etc., are reclassified for measurement at amortised cost.

Impairment: The Group assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since its initial recognition.

Reclassification: When and only when the business model is changed, the Group shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

De-recognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Group has transferred substantially all of the risks and rewards of ownership. Concomitantly, if the asset is one that is measured at:

- a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;
- b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment in which case the cumulative fair value adjustments previously taken to reserves is reclassified within equity.

Financial Liabilities

Initial and subsequent recognition: Borrowings, trade payables and other financial liabilities are initially recognised at the value of the respective contractual obligations. They are subsequently measured at amortised cost. Any discount or premium on redemption / settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest rate method and adjusted to the liability figure disclosed in the Balance Sheet.

De-recognition: Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation in respect of the liabilities is discharged, cancelled and settled on expiry by the Group.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Equity Instruments

Equity instruments are recognised at the value of the proceeds, net of direct costs of the capital issue.

(f) Government Grants

The Group entities may receive government grants that require compliance with certain conditions related to the entity's operating activities or are provided to the entity by way of financial assistance on the basis of certain qualifying criteria

Government grants are recognised when there is reasonable assurance that the grant will be received, and the Group entity will comply with the conditions attached to the grant. Accordingly, government grants:

- a) related to or used for assets are included in the Balance Sheet as deferred income and recognised as income over the useful life of the assets.
- b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.
- by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.
 - Capital subsidy under TUFS from the Ministry of Textiles on specified processing

(g) Claims, Provisions, Contingent assets and Liabilities:

Claims lodged by and lodged against the Group are accounted in the year of payment or settlement thereof.

Provisions are recognised when, as a result of a past event, the Group has a legal or constructive obligation; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. The amount so recognised is the best estimate of the consideration required to settle the obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. In an event when the time value of money is material, the provision is carried at the present value of the cash flows estimated to settle the obligation.

Contingent liabilities are not recognised but are disclosed by way of notes to the financial statements, after careful evaluation by the management of the facts and legal aspects of each matter involved. Contingent assets are neither recognised nor disclosed in the financial statements. Contingent liabilities are assessed continually to determine whether an outflow of resources embodying the economic benefit has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as contingent liability, a provision is recognised in the financial statements of the period in which the change in probability occurs.

(h) Recognition of revenue and expenditure

(i) Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable. Revenue represents the net invoice value of goods and services provided to third parties after deducting discounts, volume rebates, outgoing taxes.

Revenue is recognised usually when all significant risks and rewards of ownership of the asset sold are transferred to the customer and the commodity has been delivered to the shipping agent. Revenue from sale of material by-products are included in revenue.

(ii) Interest and dividend income

Interest income is recognised using Effective Interest Method (EIR).

EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of financial instruments or a shorter period, where appropriate, to the gross carrying amount of the asset or to the amortised cost of financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit loss.

Dividend income is recognised in the Statement of Profit and Loss when the right to receive dividend is established.

(i) Borrowing Cost

Borrowing Cost attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets upto the date when such assets are ready for intended use. Other borrowing costs are charged as expense in the year in which they are incurred.

(j) Employee benefits

The cost of providing benefits under the defined benefit obligation is calculated by independent actuary using the

projected unit credit method. Service costs and net interest expense or income is reflected in the Statement of Profit and Loss. Gain or Loss on account of re-measurements are recognised immediately through other comprehensive income in the period in which they occur.

The employees of the Group are entitled to compensated leave for which the Group records the liability based on actuarial valuation computed using projected unit credit method. These benefits are unfunded.

Actual disbursements made, under the Workers' Voluntary Retirement Scheme are accounted as revenue expenses.

(k) Taxes on income

Taxes on income comprises of current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the amounts used for taxation purposes (tax base), at the tax rates and tax laws enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for the future tax consequences to the extent it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Income tax, in so far as it relates to items disclosed under other comprehensive income or equity, are disclosed separately under other comprehensive income or equity, as applicable.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realize the asset and settle the liability simultaneously.

(1) Foreign currency transactions and translation

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.

Monetary items denominated in foreign currencies at the year end are restated at year end rates. In case of monetary items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognised as exchange difference and the premium paid on forward contracts has been recognised over the life of the contract. Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Statement of Profit and Loss.

Non-monetary foreign currency items are carried at cost.

(m) Prior period errors

Prior Period Errors are omissions from, and misstatements in, prior period financial statements resulting from the failure to use, or the misuse of, reliable information that was available, or could not be reasonably expected to have been obtained, at the time of preparation of those financial statements.

Prior Period Errors have been corrected retrospectively in the financial statements. Retrospective application means that the correction affects only prior period comparative figures, current period amounts are unaffected. Comparative amounts of each prior period presented which contain errors are restated. If however, an error relates to a reporting period that is before the earliest prior period presented, then the opening balances of assets, liabilities and equity of the earliest prior period presented has been restated by following IAS 8.

(n) Earnings per share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also, the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

(o) Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

3.25. Financial risk management

i. Financial instrument by category

For amortised cost instruments, carrying value represents the best estimate of fair value except investment in other debentures.

ii. Risk management

The Group's activities expose it to market risk, liquidity risk and credit risk. The Board of Directors has overall responsibility for the establishment and oversight of the group's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk..

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Group. The Group's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Group continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls. Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits. Other financial assets measured at amortized cost includes loans to employees, security deposits and others. Credit risk related to other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensures the amounts are within defined limits.

Credit risk management: The Group assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and

factors specific to the class of financial assets.

- a) Low credit risk
- b) Moderate credit risk
- c) High credit risk

Credit risk exposures: The Group's trade receivables, wherever they are substantially exceeding the credit period, may have a loss of credit inbuilt in the outstanding amount. The Group will recognise loss of credit outstanding, if any, on outcome of its efforts for recovery.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Group maintains adequate liquidity for meeting its obligations by monitoring the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows from the operations.

C) Market risk

Market risk is the risk of changes in the market prices on account of foreign exchange rates, interest rates and Commodity prices, which shall affect the Group's income or the value of its holdings of its financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimising the returns.

a) Currency risk

The Group undertakes transactions denominated in foreign currency (mainly in US Dollar and GBP), which are subject to the risk of exchange rate fluctuations. Financial assets and liabilities denominated in foreign currency are subject to reinstatement risks.

The outstanding of banks and ARC is since classified as Non-Performing Loans and the Company has not recognised interest as an expenses thereon.
